Professional Summary

Python Full Stack Developer with a foundation in Python, Django, REST APIs, React.js, and SQL. Experienced in developing web applications and integrating AI-powered features, with academic project experience in backend development, database management, and frontend technologies.

Technical Skills

Programming Languages: Python, JavaScript, SQL
Frontend Technologies: HTML, CSS, React.js
Backend Technologies: Django, Django REST Framework, REST APIs, JWT Authentication
Databases: MySQL, SQLite, Oracle SQL
Cloud: AWS Fundamentals
Core Concepts: OOP, Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks, Linux

Projects

Smart Warehouse Management System GitHub

Python, Django, Django REST Framework, React.js, Oracle SQL, JWT

- Developed a warehouse management application to manage inventory and monitor stock levels.
- Implemented Django REST APIs with JWT authentication and Oracle database integration for inventory operations.
- Built a React dashboard to display inventory quantities, stock information, and inventory value.
- Integrated an AI-powered assistant for inventory-related queries and configurable low-stock monitoring.

AI Interview Coach GitHub

Python, Django, React.js, Gemini API, Web Speech API

- Developed an AI-powered interview preparation application to help users practise job interviews.
- Integrated Gemini API to generate interview questions based on job descriptions.
- Implemented speech-to-text functionality to capture spoken answers and automated evaluation to provide scores and feedback.

AI Summarizer GitHub

Python, Hugging Face Transformers, Newspaper3k, PyTesseract, HTML, CSS

- Developed an AI-based summarization tool to generate summaries from text, web articles, and images.
- Integrated Hugging Face Transformers for NLP-based text summarization.
- Implemented article extraction using Newspaper3k and image text extraction using PyTesseract OCR.

Experience

Python Full Stack Intern Jan 2026 – Jun 2026

QSpiders, Bengaluru

- Completed structured training in Python Full Stack Development, covering Python, MySQL, HTML, CSS, and JavaScript.
- Learned programming fundamentals, database concepts, and frontend and backend development through practical sessions.
- Developed web-based projects, including portfolio websites and a Smart Warehouse Management System.
- Participated in technical assessments and mock interviews while collaborating with peers on projects.

Education

Jyothy Institute of Technology 2022 – 2026
B.E. in Artificial Intelligence and Machine Learning CGPA: 8.6
Bengaluru, India

Sadhana PU College 2020 – 2022
Pre-University (Class XII) 91%
Bengaluru, India

Certifications & Achievements

- Co-authored peer-reviewed research publications on AI-Based Chatbot and Fitness and Nutrition Recommendation System.
- Completed AWS Cloud Foundations certification.
